

Celcuity To Present at Upcoming TD Cowen and Jefferies Investor Conferences

May 21, 2025

MINNEAPOLIS, May 21, 2025 (GLOBE NEWSWIRE) -- Celcuity Inc. (Nasdaq: CELC), a clinical-stage biotechnology company pursuing development of targeted therapies for oncology, today announced that Brian Sullivan, Chief Executive Officer, and Co-founder of Celcuity, will present and be available for one-on-one investor meetings at the following investor conferences:

- A fireside chat at the TD Cowen: 6th Annual Oncology Innovation Summit at 9:30 a.m. ET on Wednesday, May 28, 2025. A live webcast will be available using this weblink: <https://wsw.com/webcast/cowen180/celc/1978947>; and
- A fireside chat at the Jefferies Global Healthcare Conference at 7:35 a.m. ET on Thursday, June 5, 2025. A live webcast will be available using this weblink: <https://wsw.com/webcast/jeff319/celc/1820072>.

Alternatively, the live webcasts will be accessible from the Investors section of the company's website at <https://ir.celcuity.com/events-presentations/> with a replay available shortly after the live events.

About Celcuity

Celcuity is a clinical-stage biotechnology company pursuing development of targeted therapies for treatment of multiple solid tumor indications. The company's lead therapeutic candidate is gedatolisib, a potent, pan-PI3K and mTORC1/2 inhibitor that comprehensively blockades the PI3K/AKT/mTOR ("PAM") pathway. Its mechanism of action and pharmacokinetic properties are differentiated from other currently approved and investigational therapies that target PI3K α , AKT, or mTORC1 alone or together. A Phase 3 clinical trial, VIKTORIA-1, evaluating gedatolisib in combination with fulvestrant with or without palbociclib in patients with HR+/HER2- advanced breast cancer is currently enrolling patients. More detailed information about the VIKTORIA-1 study can be found at [ClinicalTrials.gov](https://clinicaltrials.gov). A Phase 1b/2 clinical trial, CELC-G-201, evaluating gedatolisib in combination with darolutamide in patients with metastatic castration resistant prostate cancer, is ongoing. A Phase 3 clinical trial, VIKTORIA-2, evaluating gedatolisib plus a CDK4/6 inhibitor and fulvestrant as first-line treatment for patients with HR+/HER2- advanced breast cancer is currently recruiting patients. Celcuity is headquartered in Minneapolis. Further information about Celcuity can be found at www.celcuity.com. Follow us on [LinkedIn](#) and [Twitter](#).
