

## Celcuity Inc. Schedules Release of First Quarter 2024 Financial Results and Webcast/Conference Call

May 8, 2024

MINNEAPOLIS, May 08, 2024 (GLOBE NEWSWIRE) -- Celcuity Inc. (Nasdaq: CELC), a clinical-stage biotechnology company pursuing development of targeted therapies for oncology, today announced that it will release its financial results for the first quarter 2024 after the market closes on Wednesday, May 15, 2024. Management will host a webcast/teleconference the same day at 4:30 p.m. Eastern Time to discuss the results and provide a corporate update.

### Webcast and Conference Call Information

To participate in the teleconference, domestic callers should dial 1-888-886-7786 and international callers should dial 1-416-764-8658. A live webcast presentation can also be accessed using this weblink: [https://viaid.webcasts.com/starthere.jsp?ei=1664947&tp\\_key=8c4820dec8](https://viaid.webcasts.com/starthere.jsp?ei=1664947&tp_key=8c4820dec8). A replay of the webcast will be available on the Celcuity website following the live event.

### About Celcuity

Celcuity is a clinical-stage biotechnology company focused on development of targeted therapies for treatment of multiple solid tumor indications. The company's lead therapeutic candidate is gedatolisib, a potent, pan-PI3K and mTOR inhibitor. Its mechanism of action and pharmacokinetic properties are highly differentiated from other currently approved and investigational therapies that target PI3K or mTOR alone or together. A Phase 3 clinical trial, VIKTORIA-1, evaluating gedatolisib in combination with fulvestrant with or without palbociclib in patients with HR+/HER2- advanced breast cancer is currently enrolling patients. More detailed information about the VIKTORIA-1 study can be found at [ClinicalTrials.gov](https://clinicaltrials.gov). A Phase 1b/2 clinical trial, CELC-G-201, evaluating gedatolisib in combination with darolutamide in patients with metastatic castration resistant prostate cancer, is enrolling patients. The company's CELsignia companion diagnostic platform is uniquely able to analyze live patient tumor cells to identify new groups of cancer patients likely to benefit from already approved targeted therapies. Further information about Celcuity can be found at [www.celcuity.com](http://www.celcuity.com). Follow us on [LinkedIn](#) and [Twitter](#).
