

Celcuity to Present at Upcoming Guggenheim Emerging Outlook: Biotech Summit 2026

February 4, 2026

MINNEAPOLIS, Feb. 04, 2026 (GLOBE NEWSWIRE) -- Celcuity Inc. (Nasdaq: CELC), a clinical-stage biotechnology company pursuing development of targeted therapies for oncology, today announced its participation in the Guggenheim Emerging Outlook: Biotech Summit 2026 to be held in New York, New York on February 11-12, 2026.

Brian Sullivan, Chief Executive Officer and Co-founder of Celcuity, is scheduled for a fireside chat at 9:30 a.m. ET on Wednesday, February 11, 2026. A live webcast of the event will be available using this weblink <https://event.summitcast.com/view/kbtj9ZAIvkb78KPZiu5dZ9/2Q8oLmGM98qWAwr5LXWSr8>. Alternatively, the live webcast will be accessible from the Investors section of the company's website at <https://ir.celcuity.com/events-presentations/> with a replay available shortly after.

About Celcuity

Celcuity is a clinical-stage biotechnology company pursuing the development of targeted therapies for the treatment of multiple solid tumor indications. The company's lead therapeutic candidate is gedatolisib, a potent, pan-PI3K and mTORC1/2 inhibitor that comprehensively blockades the PI3K/AKT/mTOR ("PAM") pathway. Its mechanism of action and pharmacokinetic properties are differentiated from other currently approved and investigational therapies that target PI3K α , AKT, or mTORC1 alone or together. A Phase 3 clinical trial, VIKTORIA-1, evaluating gedatolisib in combination with fulvestrant with or without palbociclib in patients with HR+/HER2- ABC, has completed enrollment and the company has reported detailed results for the *PIK3CA* wild-type cohort and has completed enrollment of patients for the *PIK3CA* mutant cohort. A Phase 3 clinical trial, VIKTORIA-2, evaluating gedatolisib plus a CDK4/6 inhibitor and fulvestrant as first-line treatment for patients with HR+/HER2- ABC, is currently enrolling patients. A Phase 1/2 clinical trial, CELC-G-201, evaluating gedatolisib in combination with darolutamide in patients with metastatic castration resistant prostate cancer, is ongoing. More detailed information about Celcuity's active clinical trials can be found at [ClinicalTrials.gov](https://clinicaltrials.gov). Celcuity is headquartered in Minneapolis.
